

PREVYNE OKECH ODHIAMBO

Python Backend Developer | Django REST Expertise | AI Integration

+254 712918350 • prevyneoketch6@gmail.com • <https://prevyne-portfolio.vercel.app/> • [linkedin.com/in/prevyne-okech/](https://www.linkedin.com/in/prevyne-okech/)

SUMMARY

Python backend developer with strong skills in Django REST Framework and PyQt6 for desktop applications. Constructed a college admission enquiry chatbot to reduce response time by 50%. Successfully delivered a responsive job board API and an AI-Powered skill-matching platform leveraging Scikit-learn, demonstrating ability to integrate machine learning with backend systems. Dedicated to developing innovative, high-performance backend services tailored to user needs.

TECHNICAL SKILLS

Programming languages: Python, JavaScript, SQL.

Frameworks: Django, Django REST Framework, PyQt6, Kivy, Flask.

Tools: Linux, Git, Docker, Kubernetes, Postman, Swagger, Celery, Redis, Nginx, Node.js, AWS.

AI/Data: Scikit-learn, TensorFlow, Chatterbot, Pandas, NLP, JSON.

SOFT SKILLS

Remote collaboration • Technical Documentation • Prioritization • Confidentiality & discretion • Proactive communication • WhatsApp • Instagram

TRAINING EXPERIENCE

 **alx**

Backend ProDev Engineering Fellow

Nairobi, Kenya

06/2025 - 10/2025

Advanced program builds professional backend web apps, emphasizing mastery in modern tech, frameworks, and DevOps for scalable, secure solutions. Combines technical skills with professional foundations.

- Curated secure, well-documented RESTful APIs for server-client communication using Python and JavaScript.
- Implemented microservices architecture integrating third-party services like AWS to build scalable systems.
- Enhanced database performance with advanced SQL queries and optimized schemas.
- Leveraged Docker and Kubernetes for container orchestration, improving deployment efficiency.
- Utilized DevOps tools like GitHub Actions, Git, Celery, Redis, Nginx and Postman for continuous integration and deployment.
- Gained proficiency in Django framework for backend services.
- Maintained comprehensive technical documentation and managed progress logs to support project transparency.

PROJECTS

College Admissions Enquiry Chatbot

06/2025 - 07/2025

Python Flask-based chatbot assists students with admissions queries using NLP and deep learning. Features persistent chat history.

- Frameworks: TensorFlow, Keras, NLTK, NumPy.
- Tools: PyCharm, Jupyter Notebook, Kaggle, JSON.
- Source Code: <https://github.com/prevyne/college-admissions--enquiry-chatbot-Ver2.0>.

Project Nexus Job Board API

09/2025 - 10/2025

Designed a fully responsive database API for a job board platform using Django REST Framework. The API is structured using Django REST Framework and documented with Swagger API. It uses a token-based session authorization system and Simple-JWT for user authentication.

- Frameworks: Django, Django REST Framework, Simple-JWT.
- Tools: Git, PostgreSQL, Celery, Redis, Postman, Swagger, CORS Headers.
- Source Code: <https://github.com/prevyne/project-nexus-backend-for-a-job-board-platform.git>.

AI-Powered Job-Skill matching Platform

06/2025 - 07/2025

Developed an AI - powered job searching platform which tailors job recommendations to a jobseeker's profile leveraging a Scikit-learn token matching algorithm to match the jobseeker's skills to job descriptions.

- Frameworks: Django, Django REST Framework, Bootstrap, Scikit-learn.
- Tools: Git, SQLite3.
- Source Code: <https://github.com/prevyne/Joblify-job-skills-matching-platform.git>.

EDUCATION

 **Kabarak University**

B.Sc. IT

09/2020 - 12/2024

- Data Structures & Algorithms, Database Management Systems, Object-Oriented Programming, Network Security, Artificial Intelligence.
